Nordic Handcraft: Watercolor Cards with Kayla McDaniels | February 10, 2021, 6:30-8 pm

We don’t give you an exact quantity of paper or cards to start with because it depends on how many you want to make and how much time you want to put into each one! But we do suggest preparing to make 5-10 cards in this 90 minute class – the idea is that they are low commitment projects, so you can make a bunch quickly. Packs of watercolor postcards are easy to find and quite inexpensive, or you can cut up your own from medium or heavy watercolor paper.

Students should provide the following items for class:
• Watercolor paints
• Watercolor paper or pre-cut watercolor postcards or cards
• Watercolor brushes of your choice
• Rinsing container with water
• Waterproof pen or marker (Kayla suggests Uni Pin markers, but you can test any pen by writing on paper and brushing water over it to see if it bleeds)

The following items are optional, but may be useful:
• scrap paper for testing or doodling
• Pencil

Materials and tools needed for the class can be purchased locally from Wet Paint Art Supplies store in St. Paul, at art stores such as Dick Blick or can be found easily online. Please contact the Program Coordinator, Erin Swenson-Klatt (erinsk@asimn.org) with any questions.
