Hej Let's Create!

Terrarium

Step 1
Gather your supplies:
- Clean glass jar or container
- Small pebbles
- Activated Charcoal
- Potting Soil
- Moss
- Small Plastic Figurines
- Succulents

Step 2
Scoop pebbles into the jar, just enough to cover the bottom.

Step 3
Mix the activated charcoal with the potting soil. Then, add enough to cover the rocks. Make sure you use a scoop because the charcoal gets messy!

Step 4
Add the succulents.

Step 5
Add the moss.

Step 6
Add the figurines and spritz with water until moist.

Hooray! You just finished your terrarium. You'll love watching it grow!
