Step 1
First, gather the supplies you need. You will need scissors, contact paper and various leaves and flowers. I went on a walk in my local park to gather my leaves and flowers!

Step 2
Cut your contact paper into two sheets of the same size. Peel off the paper backing of one sheet of contact paper.

Step 3
Place your leaves and flowers on the sticky side of your contact paper. You can even try to make a pattern or design!

Step 4
Peel off the paper backing of your other sheet of contact paper.

Step 5
Press this new sheet sticky side DOWN onto your collage.

Step 6
Press the contact paper firmly together.

Step 7
Hooray! You just made a beautiful nature collage! You can hang it up in your house to bring nature inside or even put it on your window as a sun-catcher!
