Hej Let's Create!
Straw Ornament

Step 1
First, gather the supplies you need. You will need straw and thread. Optional: cardboard and a thumbtack for easier assembly.

Step 2
Place two hand length pieces of straw in a cross shape. Place another two pieces on top. To make assembling easier, you may use a thumbtack in the middle of the ornament as shown on a piece of cardboard.

Step 3
Using a long piece of thread, begin threading one end over and under each piece of straw as show. Do this several times until it feels secure.

Step 4
Once you are done threading, you should have the two ends of the thread. Tie them together to make your ornament secure. Use another piece of thread to make a loop to hang your ornament from.

Step 5
You may use a scissors to cut the straw into different lengths.

Step 6
Hooray! You finished a straw ornament! Now you can find the perfect spot to hang it up!
